Platforms and Design for the Caring Economy

Training School, 12-16 August 2019, Aarhus, Denmark

Ethnographies of Collaborative Economi(es)

Conference, 25 October 2019, Edinburgh, UK

Special Issue of the CoDesign Journal:

Repositioning Codesign in the Age of Platform Capitalism: From Sharing to Caring

Status of Action:

- Start of the Action: 24/03/2017
- End of the Action: 23/03/2021

Members: 35 COST member countries + 1 Cooperating country (Israel), and 2 Observing partners from Australia (IPC) and Georgia (NNC)

At Action level:

- Subscribe to the Announcements mailing list: www.tinyurl.com/SC-announcements
- Read the Memorandum of Understanding and choose one or two Working Groups to join
- Follow the action on social media:
Twitter: [@SharingCaringCA](https://twitter.com/SharingCaringCA)
Facebook: [/SharingAndCaringCOST/](https://www.facebook.com/SharingAndCaringCOST/)
- Website: SharingandCaring.eu
- Join the online social space at: social.sharingandcaring.eu

At Working Group level:

- Join the WG specific mailing list and online social space
- Introduce yourself on the WG mailing list
- Take part in the periodic WG meetings
- Read the summary of activities so far
- Add your profile on the action website

Contribute to:

- Short Stories
- Country Reports
- Bibliography
- Who's Who Directory

COST ACTION

Examining Socio-Technical Aspects
of the Collaborative Economy

SharingandCaring.eu

COST is supported by the
EU Framework Programme Horizon 2020

THE ACTION'S OBJECTIVES

TO JOIN THE ACTION

OUR WORKING GROUPS

The **main objective** of this action is to develop a European network of actors (including scholars, practitioners, communities and policy makers) focusing on the development of collaborative economy models and platforms, and on social and technological implications of the collaborative economy through a practice-focused approach.

The **specific aims** are:

- To develop a deeper understanding of the collaborative economy phenomenon in all its aspects.
- To discuss and critique elements of the current discourse on the collaborative economy, and propose a richer definition and characterisation of the phenomenon.
- To formulate a European research agenda for the socio-technical aspects of the collaborative economy.
- To articulate a European research perspective on the collaborative economy, based on EU values of social innovation.

Get involved in
